**Submission concerning Greenpeace's intention to place stone blocks in Natura 2000-areas Fladen and Lilla middelgrund**

The Swedish Coast Guard has, from the point of view of the terms of its duty and operation, no viewpoint to offer in the matter, but wants however to emphasise that the Administrative Board's possible decision will lead to the Swedish Coast Guard supervising the adherence to the actual terms and regulations decided upon.

The decision on this statement has been made by the deputy Executive for Marine Surveillance, Ronnie Willman. Also taking part in the handling of the matter, Fishing Administrator Ola Vesterlund and Environmental Crime Administrator, Anders Gelderman as well as Departmental lawyer Sten-Olov Södergård (presenter).

Ronnie Willman  
Executive for Marine Surveillance
